

It is our understanding that changes to New Jersey's do not call list are being considered by the FCC. While we understand the right that telemarketers have to own and run a business, earn a living and offer a service we do not believe they have the right to do so when potential customers have specifically stated they do not wish to be contacted. Their rights should not affect ours. We submitted our information to the do not call list the moment it was available and believe in doing so our quality of life has increased. Forcing us to allow unwanted calls into our home is unacceptable. The federal guidelines should be raised to meet NJ's!
